

STARCLEANER V

BITUMEN AND ASPHALT REMOVER

STARCLEANER is a liquid, vegetal based product, particularly indicated to remove normal and modified bitumen from asphalt paving equipment and in laboratories.

Chemical-Physical Properties

Appearance	Liquid
Density	0,87 g/cm ³
Boiling Point	> 100 °c
Flash Point	> 60 °c
Freezing point	< -20 °c
Solubility in water	Dispersible
Odour	Orange flavour

values can be subject to minor variations

Applications

STARCLEANER is a strong degreasing product, designed to remove asphalt, tar and bitumen from different kind of surfaces.

Specially road paving equipment like trucks, pavers and asphalts pavers, but also laboratory equipment and other, are the field of application.

Advantages

Main advantages of **STARCLEANER** are:

- Based on vegetal derivates;
- Dispersible in water;
- Environmentally friendlier respect traditional fluids;
- Excellent cleaning properties even if applied in small quantities;
- Pleasant orange smell during and after cleaning;

Modality of use

STARCLEANER should be applied by a brush or by spraying on the cold surface that should be cleaned.

For heavily dirty surfaces is the application of the undiluted product suggested.

For vertical surfaces can be added 10% of water in order to increase the viscosity.

Higher dilution rates with water, up to 1 to 10, are possible based on application. The diluted solution will result stable for several hours. After 24 hours is a remixing by simple stirring or shaking suggested.

Before brushing the surface with water should be waited minimum 5 minute. Longer times, up to several hours, takes to even better results.

Packing

The product is delivered in 180 kg steel drums or at request in 900 kg IBC-container.

Storage

STARCLEANER can be stored for 24 months in original pack but closed.

Warning

Some types of rubber can become brittle after extended exposure. Influence on treated surface should be tested in advance.

For more information on classification and measures of protection, please see the Safety Data Sheet available upon request.

The present card contains technical information of our products at our best knowledge. STAR ASPHALT S.p.A. assumes responsibility exclusively for the applications carried out under its directly supervision.
